English Language, Travel Tourism & Science

**2008 - 2013**

GCSE's, St. Cuthberts Roman Catholic Comprehensive School  
Mathematics, English, Physics, Geography, Biology, Religious Studies, Chemistry, I.T Information Technology, French, Physical Education, History, Technology

## Work Experience

**2022 – Present**

### **Driver Bearer, Coop Funeralcare**

I took this position after a few months at a different company as it had a reduced role than my previous F.S.O role to allow me to focus my time towards my university studies. The daily roles of this job were to clean the ceremonial fleet, drive the vehicles on funerals and bear the coffin. Although I'm frequently stepping up to complete the roles of my previous position based on my experience in the industry.

**2018 - Present**

### **Game Testing, Ubisoft Reflections**

Along side my studies and paid work, in my spare time, I voluntarily game test at Ubisoft. This role is not a paid role but I've enjoyed helping test games and get some experience working within the games industry.

**2021 – 2022**

### **Bearer, Clark Pearson Funeral Directors**

After returning from a study abroad in Stuttgart, Germany I worked for an independent family funeral directors. The roles of this position were to attend funerals to bear or drive limousines and hearses.

**2020 – 2020**

### **Nightshift crew, Coop Funeralcare**

During the pandemic I was promoted to work with the nightshift crew due to the increase in demand on their workload. The roles of this job were to respond to police removals which had to be done within a certain time frame for the whole of Newcastle and Northumberland, while also responding to private calls for removals. During times with no calls, we were given a list of tasks which we independently worked through to complete each night. This list would consist of creating coffins, encoffining the deceased and transfers to other branches.

**2016 – 2020**

### **Funeral Service Operative (FSO), Coop Funeralcare**

As a Funeral Service Operative, I provided the best service to our customers from the moment the clients contact us, whether it's bringing the deceased into our care with dignity and respect or driving the hearse or limousines on the day of the funeral. My key responsibilities were maintaining our fleet of vehicles, coffin preparation, attending sudden deaths (Coroners), home and nursing home deaths, working on call 24 hours a day, 7 days a week. The role was challenging physical and mentally however as a Funeral Service Operative I believed that my role was rewarding, I enjoyed working individually and as part of the team whilst being professional and empathetic but delivering the highest of standards.

**2015 – 2016**

**Masonry Administrator, Coop Funeralcare**

My daily tasks were to input masonry orders for all the care centers within the East and West sectors, constantly working to demanding lead times and deadlines.

Communicating daily with our masonry suppliers, care centers and clients to make sure we delivered the best service possible, also dealing with local councils and cemetery guidelines. dealing with and escalating complaints to the senior management team and challenging suppliers where there were inconsistencies.

### Technical Skills

- Web programming in HTML, CSS, PHP
- JavaScript/Three.js
